Languages: Python, HTML/CSS, C++, Java

Tools: VS Code, Jupyter Notebook, Microsoft Office, GitHub,Eclipse

CERTIFICATIONS: IC3 Certification – Global Standard 5 (Certiport / Pearson VUE) — Issued Aug 2023 | Credential ID: wXhpP-4Som

PROJECTS :

GitHub: DevDem01/Resume-Website

Resume Website

- Built a multi-page resume site using HTML with clean structure and working hyperlinks (GitHub, contact links, etc.).
- Organized content into sections (Education, Skills, Projects, Experience) to mirror a traditional resume layout.

Motivation Webpage **GitHub: DevDem01/Motivation-Webpage**

- Created a motivation-themed webpage using HTML and CSS with a visually engaging layout.
- Practiced core front-end skills: semantic HTML, CSS styling, and page structure.

Java OOP Fundamentals **GitHub: DevDem01/java-OOP-Fundamentals**

- Practiced object-oriented programming concepts in Java (classes, objects, methods, and inheritance basics).
- Kept examples small and readable to reinforce fundamentals.

EXPERIENCE:

Papa John's — Assistant Manager | Birmingham, AL Sep 2023 – Present

- Supervise daily store operations including quality control and performance management.
- Coordinate team workflows during busy shifts and solve problems quickly to meet performance targets.
- Support training and onboarding by communicating expectations and reinforcing standards.

ACTIVITIES:

UAB Mentorship Program Oct 2025 – Present

- Participate in 1:1 mentorship sessions to get guidance on the tech field, career growth, and professional development.
